If blood tests were ordered for your child, results may take one week or longer to return. You may email in one week's time to inquire about laboratory results. If you do not receive a reply in 3-4 days time, you can email your request again.

For urgent allergy or immunology issues related to your child's care, you may call the Allergy/Immunology office (617 355-6117) to speak to a nurse, or after hours, to a physician.

For any medical emergencies, you should call 911.

If additional records or testing has been requested from an outside facility, please fax or mail documents to:

John Lee, MD
